

Resubmission of RIBF246

Thursday 4 September 2025 16:20 (20 minutes)

The proposal RIBF246, In-beam γ -ray and mass spectroscopy of ^{90}Rh and ^{94}Ag , is planned to be resubmitted this year. The ^{94}Ag setting will be removed, leaving only the ^{90}Rh setting, and the in-beam+decay measurement of ^{86}Tc will be added.
