

Origin of Elements & Cosmic Evolution

Peng Huanwu Collaborative Center for Research and Education,
Beihang University, Beijing, China

SCHOOL

Nov. 10–12, 2025

High-resolution spectroscopy

Andreas Korn (Uppsala University)

Stellar evolution

Xiaoting Fu (Purple Mountain Observatory, CAS)

Nuclear physics

Longjun Wang (Southwest University)

WORKSHOP

Nov. 13–14, 2025

Stellar abundances

Galactic archaeology

Supernovae & Compact objects

Heavy element nucleosynthesis

Nuclear reactions for astrophysics

Neutrinos and weak interactions in astrophysics

Scientific Organizing Committee

Toshitaka Kajino

Jianrong Shi

Xiaodong Tang

Haining Li

IRCBBC, Beihang University

National Astronomical Observatories, Chinese Academy of Sciences

Institute of Modern Physics, Chinese Academy of Sciences

National Astronomical Observatories, Chinese Academy of Sciences

Local Organizing Committee

Ruizheng Jiang

Zhenyu He

Yudong Luo

Yangming Lin

Hongrui Gu

Guo Li

Linjing Qi

Xinxu Wang

Yong-Beom Choi

Hongrui Feng

National Astronomical Observatories, Chinese Academy of Sciences

Beihang University

Peking University

National Astronomical Observatories, Chinese Academy of Sciences

National Astronomical Observatories, Chinese Academy of Sciences
