

Contribution ID: 30

Type: **not specified**

**Well-controlled emittance of the metallic ion beam
extracted from the 28-GHz Superconducting ECR ion
source adapting the superconducting acceleration
cavity for new super heavy elements research**

Wednesday, 4 September 2019 09:50 (20 minutes)

Presenter: NAGATOMO, Takashi ((RIKEN))

Session Classification: Beam formation, extraction, transport, and diagnostics
