

# The 17th International Symposium on Origin of Matter and Evolution of Galaxies

## Wednesday, 11 September 2024

### First Generation Stars and Galactic Chemical Evolution (14:00 - 15:10)

| time  | [id] title   | presenter        |
|-------|--|------------------|
| 14:00 | [17] Narrow-band metal-poor star surveys with Subaru/Hyper Suprime Cam and Tomo-e Gozen Camera | TOMINAGA, Nozomu |
| 14:25 | [4] Exploring the Early Galactic Formation through Chemodynamics of Very Metal-poor Stars      | ZHANG, Ruizhi    |
| 14:40 | [5] Uncovering the origin of Galactic ancient accretion relics                                 | XIE, Renjing     |
| 14:55 | [63] Origin and evolution of the satellite system of Milky-Way-like galaxies                   | TANG, Guobao     |
