

Instructions for preparation of abstracts for HCI 2026(14-point, centered)

Author One^{1*}, Author Two², Author Three^{1,2}

¹ Address of the Institution or Research Group (12-point, centered)

² Address of Author Two (12-point, centered)

The abstract must be formatted in a single column on one A4 page, including all figures and references. The top, bottom, left and right margins must each be set to 2.5 centimetres. All text, figures etc. must fit within these margins. The main text should be set in 12-point Times font, while the abstract title should use 14-point Times **bold**. Lines must be single-spaced with full justification. The only accepted format for abstract submission is Adobe's Portable Document Format (PDF). The abstract book will be printed in black and white, although the online PDF version will display figures and content in color.

Abstracts must begin with the title, followed by the authors' names and their respective institutional addresses. The title, author names and affiliations should be centered. The name of the corresponding author (the author responsible for submission) must be in **bold**, and their email address should be listed at the bottom of the page. References in the text must be numbered and enclosed in square brackets, for example [1]. A references list should be included at the end of the abstract. No page numbers should be included.

Abstracts should be submitted through the conference official website: <https://indico.impcas.ac.cn/e/HCI2026>, with the file name formatted as HCI_[First Initial][FamilyName].pdf (e.g. OAuthor.pdf). Authors submitting multiple abstracts must append a sequential number to each file name (e.g. HCI.OAuthor1.pdf, HCI.OAuthor2.pdf). Abstracts will not be considered unless at least one of the listed authors is a registered participant.
